Thacker-Grigsby Telephone Company
47 CFR§54.313(a)(5) Certification that it is complying with applicable service quality
standards and consumer protection rules
For voice and broadband services

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.” The Commission found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement” and that the sufficiency of other commitments would be considered on a case-by-case basis.² In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”

Thacker-Grigsby Telephone Company (“Company”) hereby certifies that it is complying with applicable service quality standards and consumer protection rules. The Company is subject to consumer protection obligations under the Kentucky Revised Statutes (KRS) and Kentucky Administrative Regulations (KAR). These obligations include, but are not limited to, the following:

(1) filing a Local Exchange Tariff pursuant to the requirements of KRS Chapter 278.541 to 278.544 and 807 KAR 5:011, which discloses rates, terms and conditions of service to customers;

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at 71.

(2) adherence to Kentucky state consumer protection requirements governing telephone providers which include Consumer protections as identified in KRS Chapter 278.546, Pricing Procedures as illustrated in KRS Chapter 278.542(1), and Compliance with Anti-Slamming Procedures as adopted in KRS Chapter 278.535;

(3) truth-in-billing requirements as required in 807 KAR 5:061, Section 13;

(4) CPNI, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy; and

(5) Records maintenance and service objectives reporting required under 807 KAR 5:061, Section 4 (4) related to the following: i) Provision of Service – 807 KAR 5:061, Section 10(1); ii) Dial Service Requirements – 807 KAR 5:061, Section 15(1) and (2); iii) Answering Time – 807 KAR 5:061, Section 22(1) and (2); and iv) Service Interruption – 807 KAR 5:061, Section 25(3) and (4).

The Company actively complies with state and federal consumer protection requirements for broadband services as may apply. Per its understanding of its requirements, the Company discloses its network management practices, performance, and commercial terms of service to its existing and potential subscribers.

Thacker-Grigsby Telephone Company
Demonstration of Ability to Function in Emergency Situations
Voice and Broadband Services
47, Part 54, Subpart C, §54.202(a)(2)

Thacker-Grigsby Telephone Company (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2) ¹ as well as and the Kentucky Administrative Regulations, 807 5:061, Section 24. The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2).

The Company supports both its broadband and voice networks by deploying battery back-up capability throughout its network that allows it to remain fully operational even when power outages preclude use of an external power source. Each central office building is supplied with standby generators and battery back-up that enable the central office to keep running for at least the minimum of four (4) hours. The Company has battery backup at all office locations and in its electronic equipment sites. In addition to battery back-up at all critical network element locations, the Company has standby generators, fueled by propane and /or natural gas, capable of running at least one week before refueling would be necessary. All stand-by generators are automatically exercised once a week. If a generator malfunction occurs during test mode or during a power outage, it sends an alarm through the Company’s central office alarm system and

¹ (1) Each telephone utility shall have a written plan to meet service emergencies resulting from failures of power service, sudden and prolonged increase in traffic, fire, storm, or acts of God. Each telephone utility shall train employees in procedure to be followed in an emergency. (2) All central offices and toll centers shall adequately provide for emergency power. Each central and/or toll office shall have a minimum of four (4) hours of battery reserve. In exchanges exceeding 5,000 lines and in toll offices, a permanent auxiliary power unit shall be installed. In offices without installed emergency power facilities there shall be a mobile power unit available of suitable capacity which can be delivered and connected within two (2) hours, or one-half (1/2) the battery reserve time, whichever is greater.

its technical staff is immediately notified. Many non-critical network elements also have permanent standby generators as described above. Any non-critical location which does not have a permanent standby generator has a suitable size mobile power unit available which can be operational at the site within one hour.

Critical portions of the Company's voice and broadband networks are fully redundant and / or operate in a self-healing ring configuration for instantaneous redirection of traffic / connectivity in the event of facility damage. This ability to change its call routing also allows the Company to manage traffic spikes throughout its network, as emergency situations require. The Company uses alternate carriers for broadband network diversity wherever practical.

Additionally, the Company maintains a written plan in place to meet service emergencies resulting from failures of power service, sudden and prolonged increase in traffic, fire, storm, or acts of God, and has trained employees on emergency procedures.

General Exchange Services Tariff
Lifeline

A. Description of Service

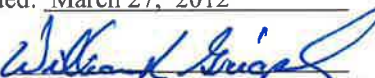

1. The Lifeline program is designed to increase the availability of telecommunications services to low income subscribers by providing a credit to monthly recurring local service for qualifying residential subscribers. Basic terms and conditions are in compliance with the FCC's Order on Universal Service in CC Docket 97-157, which adopts the Federal-State Joint Board recommendation in CC Docket 96-45, which complies with the Telecommunications Act of 1996 and FCC Lifeline Reform Order 12-11. Specific terms and conditions are as prescribed by the Kentucky Public Service Commission and are as set forth in this tariff.
2. Lifeline is supported by both the federal and state universal service support mechanisms.
 - a. The state universal service support mechanism will be funded by a Kentucky Public Service Commission approved charge on all customers' bills. The line item shall be shown on the customers bills as "Kentucky Lifeline Support." The Company will bill the charges as prescribed by the Kentucky Public Service Commission.
3. The total support of \$13.00 is available for each Lifeline service and is passed through to the subscriber. The amount of credit funded by the state is \$3.50 with the remaining \$9.50 to be collected from the federal fund. The Lifeline credit is to be applied only to total of the local service charge and the federal subscriber line charge. The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage. In event the full credit is not taken, any lesser amount should be prorated on the basis of two parts from the state fund to one part from the federal fund for amounts in excess of the federal baseline support of \$5.25. The total support will be reduced to \$12.75, effective June 1, 2012. The total amount of credit from the federal fund will be reduced to \$9.25, effective June 1, 2012.

B. Regulations

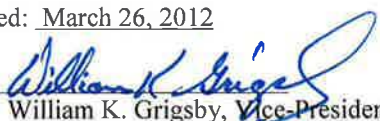

1. General

- a.
- b. One low income credit is available per Household, and is applicable to the primary residential connection only. A Household is defined as any individual or group of individuals living together at the same address as one economic unit and may include related and unrelated persons. An economic unit consists of all adults contributing to and sharing in the income and expenses of a household. An adult is any person eighteen years or older. If an adult has no or minimal income, and lives with someone who provides financial support to him/her, both people shall be considered to be part of the same household as their parents or guardians.
- c. A Lifeline customer may subscribe to any local service offering available to other residence customers.
- d. Toll blocking, if elected, will be provided at no charge to the Lifeline subscriber.
- e. The deposit requirement is not applicable to a Lifeline customer who subscribes to toll blocking. If a Lifeline customer removes toll blocking prior to establishing an acceptable credit history, a deposit may be required. When applicable, advance payments will not exceed the connection and local service charges for one month.
- f. The federal primary interexchange carrier charge (PICC) will not be billed to Lifeline customers who subscribe to toll blocking and do not presubscribe to a long distance carrier.
- g. A lifeline subscriber's local service will not be disconnected for non-payment of regulated toll charges. Local service may be denied for non-payment of local and miscellaneous service in accordance with Part I of this Tariff. Access to toll service may be denied for non-payment of regulated tolls. A Lifeline subscriber's request for reconnection of local service will not be denied if the service was previously denied for non-payment of toll charges.
- h. Lifeline is not available for resale.
